Senior Computer Center Council Meeting
Thursday 6 June, 2019

Attending: Alan Schlenger, Bill Firestone, Gail Charlotte, David Copp, Jean Brubeck, Carolyn Wardrip, Kelly Mercer-Lebov, Emiliano Galvan, Janine Roth, Maria Gardner

1. **Review of minutes from last meeting:** Approved and seconded.

2. **FOPAR Account Balance and number of current members:**
   The current account balance is $35,043.46
   Number of current members is 171

3. **Report showing attendance records of lab and SIG's**

Average Attendance Rates for 2019
Open Lab Hours (January- May)

Day of Week	Days in 2019	Times Attended	Average Attendance
Tuesday	17	49	2.88/average
Wednesday	22	67	3.04/average
Thursday	21	61	2.9/average
Friday	18	71	3.94/average
Total	78	248	3.19/average

Special Interest Group/ Classes (January – May)

Class	Days in 2019	# of People	Times Attended	Average Attendance
iOS Help with Jean	9	18	21	3/ session
iDevice Discoveries	13	8	44	4/ session
Building iPad Skills	4	12	21	5/ session
Cybersecurity for Seniors	5	13	22	5/ session
Photo Management with Alan	7	16	40	6/ session

4. **Follow-up on classes related to Photo Management and Cyber Security.**
Cyber Security: Janine Roth and Maria Gardner joined us to discuss the classes and labs that they have held thus far. They have done some formal classes which were well-attended by people who seemed relatively well-informed. The labs were less well-attended. One of the subjects introduced is that of a Password Manager which may be too complex to cover adequately in the time of a lab. Janine and Maria are very open to suggestions for topics, i.e. privacy, Facebook settings, etc.

iOS Photo Management: Alan Schlenger initially offered a class for i-devices but some of the people who attended were iMac owners so he taught 2 classes - one for iOS and another for iMac. Alan went through the curriculum, mark-up was of particular interest, and feels the course is now complete.

5. **Further discussion on outreach:**
Attached please find a .pdf showing times, etc. of ads on KAZU
Lab volunteers will ask new members where they heard about the center and offer a brochure to help spread the word. At the end of June we will compile this information and use it to decide if we want more radio ads.
Carolyn Wardrip suggested possibly offering a workshop on various devices and applications that can be used for monitoring health, such as Fitbit, Apple Watch and others.
ACTION: Jean will compile information on available health applications and present it to the council

6. **Online learning memberships for those looking to improve their workforce skills.**
David Copp looked at the courses offered and there are several Excel courses. Kelly will design a form for members to apply for the funds to take an online course and the council allocated $100 for this purpose. It will be made clear that it is only the cost of the course that will be covered and that the specific program, i.e. Excel, Photoshop, etc., must be owned or purchased by the member.

The next council meeting will be on Thursday 5 September, 2019
